

CP Series Compact Powered Loudspeakers

KEY FEATURES

- Compact and powerful performance
- 1000 Watt peak power Class D amplifier module
- Easily selected contours for commonly used applications
- Advanced DSP with Intrinsic Correction™ for superior sound quality and speaker protection
- Directivity Matched Transition™ (DMT) for consistent frequency response across the entire coverage area
- Lightweight and highly portable
- Professional appearance looks great in any application
- Use for main PA, stage monitor, or instrument amplifier
- 35 mm pole socket
- Optional Yoke, Tote, and Outdoor Cover accessories
- Complete EASE and CAD information available online
- 6 Year Warranty when registered within 30 days from purchase

CP8 | CP12

Entertainers · Educators · Institutions Houses of Worship

Compact Powered Loudspeakers

High performance, superior quality and lasting reliability. These are the hallmarks of the QSC brand and the reason why millions of professionals the world-over have come to trust QSC to help them confidently deliver superior experiences and memorable performances. The CP Series follows in that same tradition while also offering an ultra-compact form factor and class-leading value.

The first thing you will notice about the CP Series is its compact design – every line, angle and curve working harmoniously to present a stylish, yet rugged, appearance. Inside, CP is equipped with a highly efficient, 1000-watt power amplifier, matching transducers and advanced DSP, delivering performance beyond expectations for a loudspeaker of this size.

Because of its compact size, CP is remarkably lightweight, making it easy to load, carry, lift and deploy in a wide range of portable and installed applications. Entertainers of all kinds as well as educators, institutions and houses of worship will appreciate the ability to mix up to three input sources (mic/line, line and music playback device) at once, making CP a great single-box PA system that sets up in seconds. As part of a larger system, CP can be deployed on a speaker pole, used as a floor monitor or as a musical instrument amplifier. System integrators will especially appreciate CP's lightweight and compact form factor when attaching it to a wall or truss (via optional yoke mount). And all users will enjoy one-touch DSP control with preset contours for the most common audio applications.

Compact Powered Loudspeakers

	CP8	CP12
Configuration:	Two-way active loudspeaker	Two-way active loudspeaker
LF Transducer:	203 mm (8 in \bar{h}), cone	305 mm (12 in \bar{h}), cone
HF Transducer:	35.6 mm (1.4 in \bar{h}) compression driver	35.6 mm (1.4 in \bar{h}) compression driver
Frequency Response (-6 dB):	56 - 20 kHz	49 - 20 kHz
Frequency Range (-10 dB):	53 - 20 kHz	47 - 20 kHz
Nominal Coverage Angle:	90° Axisymmetric	75° Axisymmetric
Maximum Rated SPL:	124 dB	126 dB
Amplifier:	Class D Peak: 800 W (LF), 200 W (HF)	
Controls:	Power 2 x Gain Mic Boost Push Switch 6-way Contour Selection Switch	
Indicators:	Power LED 2 x Input Signal LED Input B MIC selected LED Limiter active LED	
Connectors:	2 x locking XLR/F ¼" combo (Line Input and Mic/Line input) 1 x 3.5 mm TRS (Stereo Input) 1 x XLR/M (Mix Output) 1 x IEC power connector	
AC Power Input:	Universal power supply 100 - 240 VAC, 50 - 60 Hz	
AC Power Consumption (1/8th Power):	100 VAC, 0.75A - 240VAC 0.31A	
Enclosure Material:	Polypropylene	
Attachment Points:	2 x M8 threaded insert (for yoke mount attachment only)	
Color:	Black	
Grille:	18 Gauge powder coated steel	
Dimensions (HxWxD):	411 x 273 x 256 mm 16.2 x 10.7 x 10.1 in \bar{h}	516 x 350 x 323 mm 20.3 x 13.8 x 12.7 in \bar{h}
Net Weight:	9.5 kg (21.0 lbs)	13.7 kg (30.3 lbs)
Shipping Weight:	11.4 kg (25.5 lbs)	16.5 kg (36.3 lbs)
Regulatory:	UL, CE, CCC, FCC Class B	
Optional Accessories:	CP8 Tote, CP8 Outdoor Cover CP8 Yoke	CP12 Tote, CP12 Outdoor Cover CP12 Yoke

¹ Peak SPL is measured on-axis at 1 m, with dynamic pink noise
